

BURNING, MUTILATING DEAD

Many at Casa Blanca Escape to the Ships and Barely Save Their Lives.

TROUBLE PROMISES TO GET MORE SERIOUS

The Natives Drove the Europeans and Jews on Board Ship and then Went Out to Christian Cemeteries and took Bodies From Their Tombs and Burned Them.

FRENCH FEAR TO BOMBARD ON ACCOUNT OF REPRISALS

FRENCH ARE ACTIVE IN MOBOLIZING TROOPS FOR THE ANTICIPATED CAMPAIGN AND ARE MASSING AT ORAN, ALGERIA, AND AT OTHER POINTS IN THE INTERIOR AND ARE IN READINESS TO EMBARK FOR TANGIER.

TANGIER, August 3.—Another steamer has arrived here bringing 400 refugees from Casa Blanca. In spite of the presence of the French cruiser Galilee in the harbor a large body of Moors attacked the refugees as they were leaving but soon desisted, but next proceeded to the Christian cemetery and dragging out a number of corpses from the vaults began to burn them.

A body of soldiers arrived on the scene and fired on the Moore, a number of whom were killed and the band then dispersed. The Galilee did not bombard owing to a request from the consuls who feared reprisals.

TOULON, August 3.—It is announced

that two more cruisers leave tonight for Morocco.

TANGIER, August 3.—The situation at Casa Blanca continues serious. Several vessels arrived here today, one carrying 250 Jewish and a number of French refugees and another steamer with 540 persons on board including many Europeans. They report the situation most alarming, the town still being in the power of the natives. All the Europeans have been taken on board vessels in the harbor.

Oran, Algeria, August 3.—French troops which are being massed here and at other points in the interior are in readiness to embark for Morocco. Two French cruisers arrived here today.

FIGHT FREIGHT RATES REPAIRED TEETH

Lumbermen Meet in Portland and Talk Rates.

PUT SOME OUT OF BUSINESS

If Railroad Puts Rates Into Effect it Will Close up Some of the Mills and Camps and Will Take \$5,000,000 Out of the Lumber Interests' Pockets.

PORTLAND, August 3.—At the meeting of the Oregon Lumbermen's Association held here today it was determined to fight the proposed, increased railroad freight rates on lumber to Mississippi Valley points. A fund will be raised by assessing mills \$10 for each 1000 feet of a run of ten hours. President Philip Buehner of the Oregon and Washington Lumber Manufacturers' Association said that the proposed rate would increase the cost of delivery at Denver \$3 a thousand and \$6 a thousand at Chicago.

Figuring an average increase in freight rates of \$2 a thousand it was shown that an enforcement by the railroads of the proposed new rates would in the course of a year exact an additional toll of \$5,000,000 on lumber shipments from the Pacific Northwest.

Here in Portland they are somewhat better off than the up-state lumbermen. About one-third of the product of the local mills is used here in Portland or shipped by steamer down the coast or to the orient. But by curtailing our output two-thirds, it means a great loss to Portland. All the mills could not afford to operate for this trade, and if they did attempt to run, it would be with great reduced crews. By the closing of scores of interior mills and the reducing of the output of the great Portland plants, workmen and merchants throughout the entire state would suffer. Few logs would be needed, so many timber camps would shut down; this would also mean that less steamboats would be needed for towing.

There are about 250 members of the Oregon Lumber Manufacturers' Association, and Secretary A. B. Waspell has invited all of them to be present at today's meeting, which will be held in the Chamber of Commerce this afternoon. It is expected the meeting will be largely attended, as the question to be discussed is a matter of business life and death with the lumber manufacturers.

Dr. Bostwick Plugs Molars of Sherefian Majesty.

RECEIVED KIND TREATMENT

Sultan Fierche in Dentist's Chair But His Wives, Children, Cousins, and Aunts, Took the Pain of Dentine Drilling in Matter of Fact Way.

NEW YORK, August 3.—Bringing royal gifts of great value and the title of "Dentist to his Sherefian Majesty, the Sultan of Morocco," with him, Dr. Frank C. Bostwick has arrived on a three months' vacation after a busy session in the Sultan's court. He was summoned last spring to repair the teeth of his majesty, his wives, his father, brothers, and other members of the royal household.

Dr. Bostwick has been practicing in Gibraltar for many years. He was retained by Spanish royalty and in this way was brought to the attention of the Sultan. In speaking of his stay at the court, the doctor declared he received exceptionally kind treatment. He found that the men were cowards when it came to endure the pain that accompanies dental operations. The women, however, underwent the ordeal in a matter of fact way. The Sultan winced and flinched while in the dentist's hands.

Dr. Bostwick will go to his old home in Ohio for a brief stay.

JUSTICE TO STANDARD OIL

Judge Landis Gives Out to Corporation the Will of Blind Goddess.

\$29,240,000 IS THE AMOUNT OF THE FINE

The Defense Will Take the Case into the Higher Courts—Fine is the Largest that Has Been Recorded in the History of the American Legal Profession.

JUDGE LANDIS SCORES THE CORPORATION IN JUDGMENT

HE SAYS THAT THE OFFICIALS OF THE STANDARD OIL ARE NO BETTER THAN COUNTERFEITERS AND THIEVES AND THAT THE MEN WHO ARE AT THE HEAD OF THE CORPORATION ARE AS BAD AS THOSE WHO STEAL FROM THE MAELS.

CHICAGO, August 3.—Judge Ken-

saw M. Landis today in the United States district court fined the Standard Oil Company of Indiana \$29,240,000 for the violations of the law against accepting rebates from the railroads. The fine is the largest ever assessed against any individual or corporation in the history of American jurisprudence. The case will be carried to the higher courts by the defendant company. The penalty imposed is the maximum permitted under the law and it was announced at the end in a long opinion in which the methods and practices of the Standard Oil were mercilessly scored. The Judge in fact declared his opinion that the officials of the Standard Oil Company who were responsible for the practices of which the corporation was found guilty were no better than counterfeiters and thieves, his exact language being:

"We may as well look at this situation squarely. The men who thus deliberately violate this law wound so-

ciety more deeply than does he who counterfeits coin or steals letters from the mail. The nominal defendant is the Standard Oil Company of Indiana, a million dollar corporation. The Standard Oil Company of New Jersey whose capital is \$100,000,000 is the real defendant."

Judge Landis stated that the demands of justice require that the facts disclosed in the proceedings be submitted to the grand jury with a view to the counterfeits coin or steals letters from party to the transactions, the Chicago & Alton and made an order directing that a panel of 60 men returnable at 10 o'clock in the morning on August 14 be drawn.

Under seven indictments still pending against the Standard Oil Company an additional fine amounting to \$88,440,000 may be levied against the company if it is found guilty on trial. There are in these seven indictments a total of 4422 counts and the maximum fine on each count is \$20,000.

ZION CITY SELLS LACE FACTORY.

But in Sale Contract Stipulates Against Profane Language and Liquor.

CHICAGO, August 3.—Announcement was made yesterday in Zion City that arrangements were practically completed for the sale of the lace factory to a well known local drygoods firm for approximately \$265,000. It was said that the papers would be signed before Judge Landis, of the United States Court on Monday.

It is declared that the purchaser will make arrangements at once to improve and extend the plant at a cost of \$1,000,000 and operate it day and night to its full capacity.

The sale carries with it the lease restrictions or prohibiting liquor or tobacco on the premises or the use of profane language by the employes. It had been supposed that the sale might be hampered by these restrictions unless they would be removed.

Receiver Hatley, it is said, will apply the necessary portion of the proceeds of the sale to remove the underlying mortgages in Zion City, aggregating \$145,000.

COLDEST AUGUST DAY.

CHICAGO August 3.—Yesterday was the coldest day in August in the history of the local weather bureau, covering a period of 37 years, with a minimum temperature of 54°.

The nearest to yesterday's record was made in 1872, when the minimum was 56°. The normal temperature for August 2 is about 60°.

PRESSURE IN MONEY MARKET.

With the Demand to Move the Crops There Will Be Caution in Speculative Ventures.

NEW YORK, August 3.—The stock market this week has moved under the restraint of the mixed factors in the situation. Interest centered on the quarterly report of the United States Steel Corporation, but its showing of record net earnings of the quarter was of less influence than the accompanying statement that new orders of the corporation for July had fallen 25 to 30 per cent below those received in July of last year. The rise in money rates in New York was all that obviated the extension of the export of gold to France, which was commenced early in the week. The expectation that the pressure on the money market will develop with the demand to move the crops instills a spirit of caution into all speculative ventures dependent on borrowed money.

INJURES HIS FOOT.

FOREST GROVE, Or., August 3.—Clayton Ward, of Dille, who has been loading vessels at Portland with lumber, was hurt yesterday quite seriously by a load of lumber that was being hoisted onto the vessel falling and crushing his left foot. He was brought home last night and the injury will perhaps lay him up for a month, so Dr. Large, who is attending him, says.
